

## HOMESTEAD REGULATIONS.

1. As the law stood prior to the 9th July, 1892, no person was entitled to make a second entry unless he had earned title to his first homestead before the 2nd June, 1887, that is to say, had actually completed the performance of his settlement duties before that date, although the necessary action connected with the issue of the patent may not have taken place for some time afterwards. The amendment of last session extends this date for two years, namely, to the 2nd day of June, 1889.

2. Any person who is entitled to get a second homestead and has a pre-emption in connection with his first entry, may now take his pre-emption as his second homestead without being required to reside thereon; but in that case he must not be absent from his first homestead for more than six months in any one of the three years next succeeding the date of his second entry, and he must do the following breaking and cultivation on his second homestead:

(a) Within the first year after date of second entry, break and prepare for crop not less than 15 acres.

(b) In the second year crop the said 15 acres, and break and prepare for crop not less than 15 acres more.

(c) In the third year crop the above 30 acres, and break and prepare for crop not less than 10 acres additional, making in all not less than 40 acres of the second homestead broken and prepared for crop within three years of the date of the second entry.

Note.—The homesteading of a pre-emption is not to be confounded with an entry under the two mile radius provision of the law. In the case of a man taking his pre-emption as a second homestead, there is no question about the distance of his residence, so long as he is not absent from his first homestead for more than six months in each of the three years during which he is earning title to his pre-emption as his second homestead.

3. For the information of parties who hold pre-emptions which they are not entitled to take as second homesteads, or prefer to retain as pre-emptions, the following provision of the law is quoted in full:

"If, in connection with the homestead entry, the settler has obtained a pre-emption entry, in accordance with the provisions of this Act, he shall, on becoming entitled to a patent for his homestead, be also entitled to a patent for the land included in such pre-emption entry, on payment of the price fixed, in accordance with the provisions of this Act, by the governor-in-council; but such pre-emption right, if not exercised and payment made within two years after the settler becomes entitled to claim a patent under his homestead entry, shall be forfeited, and the land included in such pre-emption entry may be opened for homestead entry by the minister of the interior."

Particular attention is directed to the fact that the provision of the statute as to forfeiture of a pre-emption for non-payment is definite and leaves the minister of the interior no discretion in the matter.

Secretary.

## THE BRIDGE.

The action of the town council in calling a public meeting for to-morrow evening to discuss the bridge question is to be highly commended. No more time should be lost in dealing with this question in a business like way. It was the great question arising out of the completion of the railway which led to the incorporation of the town and now that incorporation is a fact every means should be used to secure the bridge. It may fairly be said that a bridge across the Saskatchewan at the terminus of the railway is for the benefit of the whole country and therefore the country should bear the expense. While this is the fact it would be idle to ignore the fact that the town of Edmonton is more directly and immediately and deeply interested in the construction of the bridge than any other section of the country and this being the case it as for us to consider if it is not better for us to come forward with substantial assistance out of our own pockets towards the building of the bridge rather than wait an indefinite period for its construction. Would it not indeed be better for us to follow the example of Winnipeg—in a similar case—and bear the whole cost of a bridge rather than do without one. How much better off are we then and how much more readily should we act when we have a fair assurance of securing a bridge by providing only a portion of the total cost. Every citizen should turn out to the meeting on Tuesday night and after a full and free discussion of the merits of the question be prepared to take united action towards securing a bridge, and thereby securing the permanent prosperity of the town.

# WETASKAWIN.

A. Prince, M. L. A. who returned from a visit to Wetaskawin on Thursday's train gives the following particulars regarding the place. In the middle of August last there were only two buildings under construction, besides the station, which was erected last year. Now there are fifteen houses and places of business of which four are stores one is an hotel, one a butcher shop, and a livery stable. A post office has been established, J. Z. C. Miquelon, postmaster. A school will soon be opened as there are 30 children of school age in the town. More than 80 town lots have been sold already by people intending to build. The population of the surrounding district has doubled since last July and it is expected that it will double again before the end of June next. A large hotel is now in course of construction. Messrs. West and Miquelon have opened lumber yards and seem to be doing a good business.

W. W. McDonald, the conservative candidate for the Eastern Assiniboia seat in the Commons, was elected by acclamation on November 22nd.

## GENERAL NEWS.

A proposition is on foot to combine the Empire and Mail in a single conservative organ.

Amos Rowe, Dominion lands agent at Calgary, is laid up with a fractured thigh bone, resulting from the kick of a horse.

The Western Milling Company, of Regina, have imported 300 hogs from the east to feed on wheat which was damaged last winter by being stored in the Regina elevator without being perfectly dry.

It is the intention of the British government to prosecute all masters of Canadian sealing vessels that entered the Behring sea last summer in contravention of the Imperial proclamation enjoining all subjects of Her Majesty to respect the terms of the modus-vivendi between Great Britain and the United States.

Mr. Armstrong, president of the Young Men's Liberal-Conservative association, in his inaugural address claimed the right to criticize the policy of the Liberal-Conservative government and this right was denied by J. Castell. The question was thoroughly discussed at a meeting of the association, and Armstrong's position was maintained by a resolution.

Regina Leader: "We repeat, however, that the muscle, speed, staying power of the horse depend on his manger, and the manger of the newspaper is the town where it is published and which it serves. Every man and woman who has property in the town, who runs business there, who has invested money there, is interested materially as well as morally, from the point of view of the dollar as well as the point of view of moral improvement and intellectual progress in its welfare and continued advance."

The consul-general for France in Canada has informed the customs department that it has come to the knowledge of the French government that salted pork is being exported to Europe as a Canadian product when it has only passed in transit through Canada. The process of curing and packing pork in Canada being the same as in the United States, the appraisers in the service of the French customs find it impossible to determine exactly the origin of this class of meat. In view of the facts the French government will hereafter require that every shipment of Canadian meat to France must be accompanied by a certificate of origin issued by the French consular authorities in the Dominion.
